WHITEWATER,
 EST. 1980

THE PUMPING HEART OF YOUR VENUE

Our technology creates Endless rolling sets, designed for operation ease, being flexible, high capacity, and above all else, safe.

Endless Surf wave simulation

THE POOL

ES2400

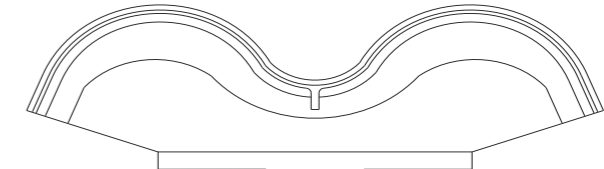

139m (456ft) x 56m (184ft)

ES3600

242m (794ft) x 84.5m (277.2ft)

ES4800

282m (925.2ft) x 84.5m (277.2ft)

Sizes

These standard sizes are customizable to the space available. Whichever size is chosen, they all come with best in class noise mitigation and decades of filtration experience to avoid water quality issues.

Shapes

The patented heart shaped pool design enables Endless Surf to create multiple zones for different types of surfers.

Ultra-flexible wave configurations for different pool sizes.

More beach front for other guests.

Zones

Each module is programmed independently to allow for multiple types of waves to propagate across the pool.

- Shortboard (Expert) zone
- Longboard (Intermediate) zone
- Boogieboard/Foamboard (Beginner) zone

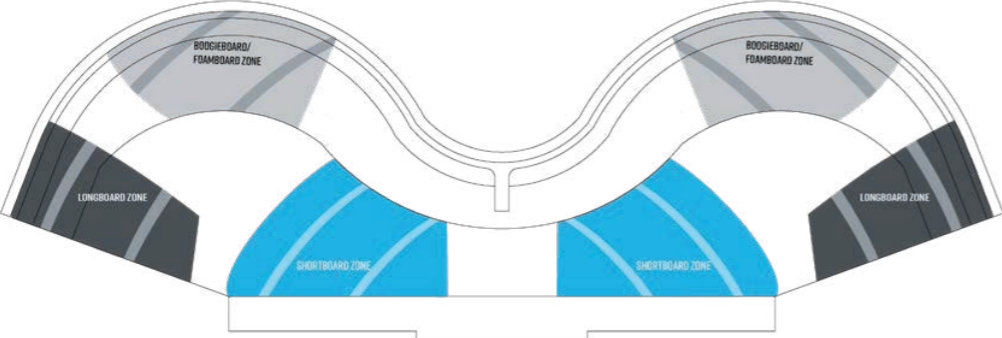

RELIABLE PNEUMATIC WAVE TECH

Sizes	2 feet (0.61 meters) to 7 feet (2.1 meters).
Shape	The ability to precisely control the angle of the wave's face determines the speed; from a gentle beginner wave to a powerful 7 foot barreling wave.
Ride Time	Dependent on size of pool, wave, and surfing zone. For example: <ul style="list-style-type: none">• 10 second ride in the intermediate longboard zone• Multiple 12 second barreling waves happening simultaneously in Dual Mode• Up to 26 second end-to-end 6 foot barreling wave ride in private/event mode
Frequency	Waves can be generated every 8 seconds, but every 10 to 12 seconds is optimal.
Throughput	Although more is possible, we recommend 75* surfers/hour.
Quality	By copying nature, our technology found the special ingredient missing from previous technologies. Power, speed and flow can be attained through the dynamic control system. This is done without special bottom contouring reefs. <ul style="list-style-type: none">• Replicates ocean surf dynamics• Accommodates the varying preferences among surfers• Creates "powerful" surf that feels exactly like the ocean
The Wave Doctor	All of this is controlled by The Wave Doctor, who brings all these elements together and prescribes the right dose for the surfers in the pool.
